

21st September 2021

Dear Parent/Carer,

Year 10 GCSE Resources for Design and Technology

Your child has recently begun their GCSE course in Design and Technology and will undertake a variety of mini projects this year that will run alongside the theory sections of the Design and Technology AQA specification. Pupils have already been given an A4 exercise book and AQA GCSE Design & Technology Revision Guide & Exam Practice workbook. They will also shortly be given an apron for them to use during these lessons which they can keep and bring home to be washed if necessary.

The mini projects will focus on wood, metal, CAD/CAM and electronics. The costs of these projects are considerable, so we are asking parents for a contribution towards the materials, books and apron of £15 per pupil. Pupils in receipt of Pupil Premium are not asked to make this contribution, though the item will appear on ParentPay.

We would be grateful if you could use ParentPay to make this contribution by 6 October 2021. If there are any issues with this payment, please do not hesitate to contact the school finance team for further support.

We are very grateful for your continued support.

Yours sincerely,

A handwritten signature in black ink, appearing to read "J Kemp".

Mr J Kemp
Head of Technology
