

Privacy Notice – Students, Parents and Carers

(How we use student, parent and carer information)

The schools / academies within Uffculme Academy Trust need to collect, store and process data on students, parents and carers in order to be able to safeguard students and keep parents informed about students' safety, welfare and progress. The data is also used to keep parents updated on whole school events, progress and activities. Only essential data is held and there are clear processes in place that govern how we collect, use, store and share the data.

Under data protection law, individuals have a right to be informed about how the school uses any personal data that we hold about them. We comply with this right by providing 'privacy notices' (sometimes called 'fair processing notices') to individuals where we are processing their personal data.

This privacy notice explains how we collect, store and use your personal data and that of your child.

We, Uffculme Academy Trust, are the 'data controller' for the purposes of data protection law.

Our data protection officer is Mrs Amy Brittan (see 'Contact us' below).

Our legal basis for using this data

We only collect and use student, parent and carer personal data when the law allows us to. Most commonly, we process it where:

- We need to comply with the law (*Article 6(1)(c) of UK GDPR*)
- We need to use it to carry out a task in the public interest (in order to provide you with an education) (*Article 6(1)(e) of UK GDPR*)

Sometimes, we may also use your personal information where:

- You, or your parents/carers have given us permission to use it in a certain way (*Article 6(1)(a) of UK GDPR*)
- We need to protect your interests (or someone else's interest) e.g. in a life or death situation (*Article 6(1)(d) of UK GDPR*)
- We may also collect and use information about your health or other protected characteristics such as your religion or ethnicity. These are special categories of personal information, and we will only collect and use it when it is necessary for public health, e.g. protecting against serious threats to health. The legal basis here is *Article 9(2)(i) of UK GDPR*.

Public Health England also has special permission from the Secretary of State for Health and Social Care to use personally identifiable information without your permission where this is in the public interest. This is known as 'Section 251' approval and includes the use of the information collected by NHS Test and Trace to help protect the public from coronavirus. The part of the law that applies here is Section 251 of the National Health Service Act 2006 and the associated Health Service (Control of Patient Information) Regulations 2002.

Where we have got permission to use your data, you or your parents/carers may withdraw this at any time. We will make this clear when we ask for permission and explain how to go about withdrawing consent.

Some of the reasons listed above for collecting and using your information overlap, and there may be several grounds which mean we can use your data.

Collecting this information

While in most cases you, or your parents/carers, must provide the personal information we need to collect, there are some occasions when you can choose whether or not to provide the data. We will always tell you if it's optional. If you must provide the data, we will explain what might happen if you don't.

How we store this data

We keep personal information about students while they are attending our schools. We may also keep it beyond their attendance at our schools if this is necessary in order to comply with our legal obligations. Our record retention schedule/records management policy is based on the [Information](#)

[and Records Management Society's toolkit for schools](#) and sets out how long we keep information about students.

The Trust is aware of the legal hold placed on the destruction of pupil files by the Independent Inquiry Into Child Sexual Abuse (IICSA) and we are retaining pupil personnel files until the publication of their final report and recommendations about file retention.

National Student Database

We are required to provide information about students to the Department for Education as part of statutory data collections such as the school census.

Some of this information is then stored in the [National Student Database](#) (NPD), which is owned and managed by the Department and provides evidence on school performance to inform research.

The database is held electronically so it can easily be turned into statistics. The information is securely collected from a range of sources including schools, local authorities and exam boards.

The Department for Education may share information from the NPD with other organisations which promote children’s education or wellbeing in England. Such organisations must agree to strict terms and conditions about how they will use the data.

For more information, see the Department’s webpage on [how it collects and shares research data](#).

You can also [contact the Department for Education](#) with any further questions about the NPD.

Youth support services

Once our students reach the age of 13, we are legally required to pass on certain information about them to local authority youth support services, as it has legal responsibilities regarding the education or training of 13-19 year-olds.

This information enables it to provide youth support services, post-16 education and training services, and careers advisers.

Parents/carers, or students once aged 16 or over, can contact our data protection officer to request that we only pass the individual’s name, address and date of birth to local authority youth support services.

Transferring data internationally

We have audited where we store all the personal data processed in school and by third party services. If a third party service stores data in the EU or US, we have ensured that safeguards such as standard contractual clauses are in place to allow the safe flow of data to and from the school.
